

CONSTRUCTION NOTICE

Fall/Winter 2025

Please be advised that the Department of the Navy (Navy), in conjunction with the New York State Department of Environmental Conservation (NYSDEC), will be conducting environmental remedial action activities along the following roads beginning approximately 10/27/2025:

- **Alken Avenue, Hicksville Road, Stuart Gate, Chester Avenue, and N Pine Street.**

The environmental remedial action activities are part of the Navy's Phase III RW10 Pipeline to Treatment Plant to address contaminated groundwater migrating from the former Naval Weapons Industrial Reserve Plant Bethpage.

Construction activities include installing an 8-inch HDPE pipeline at various depths between 6 feet and 13 feet below the ground surface and concrete manholes in the above listed roadways.

Anticipated disruptions along these roads could include temporary roadway closure/limited closure. Traffic cones, man flaggers, signs, etc. will be utilized in these events. The duration of pipeline installation is currently scheduled to require **approximately 90-120 days**. Standard construction equipment will be used during these activities.

A map of this work is provided on the other side of this notice. Additional information on the Navy's cleanup program is available at <https://go.usa.gov/xSd6H>.

The Navy and its contractors are taking all reasonable steps to minimize disruption to you and your neighbors during these construction activities. Furthermore, heavy equipment will only be operated between the hours of 8 a.m. and 4 p.m., Monday through Friday, to limit noise disturbances. If it is necessary to visit the work site during other hours or weekends, activities will be kept to a minimum. No work will occur on any major holiday, and concerted efforts will be made to minimize disruptions in days directly preceding or following these holidays.

The onsite prime contractor for the Navy will be Severson Environmental Services, Inc. (SES, Inc.) and their subcontractors. Inquiries may be directed to Brad Weiser, the Navy's Task Order Manager, or other contacts listed below. We appreciate your cooperation and patience as we complete this important project.
